Editorial Index to Volume 215
January to December 1987

A

Analytical techniques
Automation and direct analysis help to draw chemists to Luxembourg. July 348
Annual technical review of European steelmaking. Aug 378

Automated coil transport
Steelworks move towards automated coil transport. May 245

B

BISPA Annual Review
Stronger voice for independent sector, by David Houghton, President of BISPA. Mar 108
Quotas and energy mark BISPA year. Mar 108
BISPA report shows how more cooperation can bring results. Mar 109
Special steels and special service from Stocksbridge. Mar 118
All Change at Glynwed by Selwyn Williams. Mar 121
Records broken at British Ropes Ltd. Mar 124
Bright future for Brasway. Mar 124
Forgemasters can beat the squeeze. Mar 124

BSC
BSC monitors atmospheric emissions. Jan 38
Laser based measurement system for hot band flatness developed by BSC. Feb 88
BSC Stainless upgrades QA facilities. Mar 134
250,000t of bloom cast through tundish rotary valve at BSC Lackenby. Mar 134
BSC Teesside adopts sprayed tundish practice for bloom casting. Apr 176
Self development is the key to BSC training shake-up. June 288
Longer life and higher quality are aims for track products from BSC Cumbria. June 304

Blast furnace refractories
Blast furnace refractories and cooling systems — the Hoogovens solution by Dr J van Larr, Ing J E van Stein Callenfells, Ing R Stokman and Ing F Kaptein. Oct 488
Latest development in cooling and refractories of European blast furnaces by M Burteaux, W Krafft, J van Larr F. B Traice, G Vecchiola Oct 492
Upper shaft lining repair techniques extends campaign life at Kashima Works by K Sato Dec 626

C

Cable Street Mills confirms Midlands commitment. Nov 570

Coil coating
BHP sees flexible processes as likely coil coating future by Ian Denney. July 338
How coil coating induction heating turns conventional curing inside out. July 339
Coated strip shows how product range need not limit customer requirements. July 342
Induction heating system promises film coil coating for small user. July 344
Immersion melting for tin replaces induction heating. July 344
Air float drying of prepainted strip offers faster speeds for coaters. Nov 574

Cokemaking and By-Products
BHP heats up world markets with start-up of new coke battery. Dec 596
Model ways to improve performance in coke by-product plant operation by C Price. Dec 600
'Combination' heating approach cleans up for Ruhrkohl by H Toll and J Janicka Dec 603

CC Refractories
Trends and developments in continuous casting refractories. Apr 175
Move towards lightweight sprayed tundish lining gains momentum in Europe. Apr 176
BSC Teesside adopts sprayed tundish practice for bloom casting. Apr 176
Practical measures to reduce inclusions in the tundish. Apr 177
Recent developments in continuous casting refractory components and systems by S J Lee and Dr N A McPherson. Apr 178
Recent experience with tundish linings in Sweden by P Havranek and P Ohlsson. Apr 183
Development of the Garnex auto-set system for large tundishes. Apr 184
Removing the health risk from ladle refractories. Apr 186
Methods of testing refractory materials. Apr 186
Quality assured tundish liners. Apr 186

E

ECSE Research
Iron and Steel. Jan 33
Flat tolling technology. Feb 89
Continuous annealing of stainless steel. Sept 468

Electric Steelmaking
Synopsis of the 2nd European Electric Steel Congress by Dr A Turetta and M Amblard Jan 12
Some electric arc furnace experience in France. Jan 18
Combining eccentric bottom tapping and ladle furnace for efficient steelmaking at Badische Stahlwerke AG by Karl-Heinz Klein, Günter Paul, Volkwin Köster and Heiner Wethkamp. Jan 22
High alloy steelmaking technology for premium quality and extra cleanness requirements by R Schlatter, A Poli and A Bennani. Jan 26

Environmental Control
Waste materials management in integrated iron and steel mills by J A Philipp and J Ketels. Nov 554
Basic components of dust control in the steel plant by D Chambers. Nov 555
Electric steel plant means breath of air for Jesenice. Nov 560
Public concern dumps pollution issue on Katowice's doorstep by M Swiss. Nov 566
Environmental protection for Shlobin Steelworks. Nov 566
Green policy and national controls set guidelines for environment. Nov 566
Process could make tinplate the no pollution packaging material. Nov 568
Detoxification of cyanide BF gas scubbing water. Nov 568
On-line measurement of NOx gases promises cleaner air. Nov 568

European File by Peter Wood
Finsider losses greater than expected. Jan 10
European steelmakers put forward own plans for capacity cuts. Feb 58
Major EC producers ready to slim down capacity Mar 106
High efficiency claims made for Italy's Finsider as holding company IRI prepares shake-up. Apr 158
Dramatic losses at Italy's Finsider could trigger drastic intervenuon. May 210
Banks prop up Mäxhutte while rescue plans are met with reserve. June 262
Future Eurofer role in closure plan uncertain as EC makes preparations. July 320
German redundancy aid go-ahead must await EC ministers meeting. Aug 376
Commission proposals for voluntary restructuring provokes sceptical response from W Germans. Sept 430
WVES demands quotas not levies. Oct 484
Voest-Alpine new proposals to cut steelmaking proportion. Nov 540
Finsider plan for cutting capacity brings stoppage response from unions. Dec 592

F

Ferroalloys
Specific consumption of ferro-silicon will rise as overall level decreases. Sept 456
Silico-manganese with very low C offers advantages to steelmakers. Sept 458
Emerging trends in chromium production: a second line of supply for the West by R Rajendran. Sept 460
Swinden Labs offers assaying service. Sept 460

Ferrous Scrap
Scrap — a valuable commodity. Jan 34
Steelmakers need a healthy scrap industry. Jan 36
Spanish entry hits UK scrap exports. Jan 37
Direct drives in the ferrous scrap industry. Jan 37
Scrap grabs. Jan 37
Scrap — slag out system for Stocksbridge. Jan 38
BSC monitors atmospheric emissions. Jan 38
Firsteel announces expansion projects to increase cold finishing facilities. May 248

Flat rolling
Flat rolling technology is discussed at ATS meeting. Feb 83
High-performance 12-high rolling mill (Kobe Steel). Feb 86
Rolling control systems developed in collaboration with Irsid (Clecim). Feb 88
Laser based measurement system for hot band flatness developed by BSC. Feb 88
Load cells for roll force measurement. Feb 88
ECSC research projects — Flat Rolling Technology. Feb 89

Flexible Steelmaking
Preheating and dust injection give savings with KMS process by Dr Ing-P Patel, Dr Ing H-J Selenz and Dr Ing J Grossmann (Klöckner). Sept 438
Results of dc LF point to all-round benefits for Brymbo by C L Jackson. Sept 440
Automatic mould width change shaped by operational results by G Gidl, K Berger, H Eidinger, F Gränitz, J Haan and M Steinhäusler. (Voest Alpine). Sept 444
Continuous process line shows promise for medium-size mills by Hiroshi Iida. Sept 446
Sheerness puts finishing touch on moves into new markets. Sept 448
Continuous ZN-vapour deposition line competes with hot-dip and electrogalv. Sept 452

France
Future for French steel is in the hands of the industry by Michel Collas. Apr 162
Technology and productivity advances within the French steel industry by Bernard Trentini. Apr 164
Development of mini-mills in France. Apr 169

G

Gas separation and recovery
Recovery of high value off-gas from BOF plants by Dennis R Rigg. June 294
New techniques in gas separation for the steel industry by A Ciuksza, A Theobold, M Kingston and J Duggan. June 296
Production and application of bulk gases. June 298
Desulphurisation of coke oven gas by HSR process by E Rothery. June 300

H

Heavy foundry and forge
No defects in Forgemasters production of nuclear flasks. May 230
200t generator shaft shows how Thyssen can handle big problems by K Forch. May 232
Saarstahl's pivotal role in the steamy world of power turbines by Dr E Potthast. May 234
High-integrity castings match needs of heavy engineering by W Gysel. May 236
Why casting problems meant good news for Krauss-Maffei by G Schmidt and F Heczko May 238
V-A single castings can reach 100t. May 238
NBSG's speedy turbine turn-around by S A Roe. May 239
NKK development aims for ductile iron alternative to stainless steel flasks. May 239

Editorial Index to Volume 215
January to December 1987

A

Analytical techniques
Automation and direct analysis help to draw chemists to Luxembourg. July 348
Annual technical review of European steelmaking. Aug 378

Automated coil transport
Steelworks move towards automated coil transport. May 245

B

BISPA Annual Review
Stronger voice for independent sector, by David Houghton, President of BISPA. Mar 108
Quotas and energy mark BISPA year. Mar 108
BISPA report shows how more cooperation can bring results. Mar 109
Special steels and special service from Stocksbridge. Mar 118
All Change at Glynwed by Selwyn Williams. Mar 121
Records broken at British Ropes Ltd. Mar 124
Bright future for Brasway. Mar 124
Forgemasters can beat the squeeze. Mar 124

BSC
BSC monitors atmospheric emissions. Jan 38
Laser based measurement system for hot band flatness developed by BSC. Feb 88
BSC Stainless upgrades QA facilities. Mar 134
250,000t of bloom cast through tundish rotary valve at BSC Lackenby. Mar 134
BSC Teesside adopts sprayed tundish practice for bloom casting. Apr 176
Self development is the key to BSC training shake-up. June 288
Longer life and higher quality are aims for track products from BSC Cumbria. June 304

Blast furnace refractories
Blast furnace refractories and cooling systems — the Hoogovens solution by Dr J van Larr, Ing J E van Stein Callenfells, Ing R Stokman and Ing F Kaptein. Oct 488
Latest development in cooling and refractories of European blast furnaces by M Burteaux, W Krafft, J van Larr F. B Traice, G Vecchiola Oct 492
Upper shaft lining repair techniques extends campaign life at Kashima Works by K Sato Dec 626

C

Cable Street Mills confirms Midlands commitment. Nov 570

Coil coating
BHP sees flexible processes as likely coil coating future by Ian Denney. July 338
How coil coating induction heating turns conventional curing inside out. July 339
Coated strip shows how product range need not limit customer requirements. July 342
Induction heating system promises film coil coating for small user. July 344
Immersion melting for tin replaces induction heating. July 344
Air float drying of prepainted strip offers faster speeds for coaters. Nov 574

Cokemaking and By-Products
BHP heats up world markets with start-up of new coke battery. Dec 596
Model ways to improve performance in coke by-product plant operation by C Price. Dec 600
'Combination' heating approach cleans up for Ruhrkohl by H Toll and J Janicka Dec 603

CC Refractories
Trends and developments in continuous casting refractories. Apr 175
Move towards lightweight sprayed tundish lining gains momentum in Europe. Apr 176
BSC Teesside adopts sprayed tundish practice for bloom casting. Apr 176
Practical measures to reduce inclusions in the tundish. Apr 177
Recent developments in continuous casting refractory components and systems by S J Lee and Dr N A McPherson. Apr 178
Recent experience with tundish linings in Sweden by P Havranek and P Ohlsson. Apr 183
Development of the Garnex auto-set system for large tundishes. Apr 184
Removing the health risk from ladle refractories. Apr 186
Methods of testing refractory materials. Apr 186
Quality assured tundish liners. Apr 186

Future for French steel is in the hands of the industry by Michel Collas. Apr 162
Technology and productivity advances within the French steel industry by Bernard Trentini. Apr 164
Development of mini-mills in France. Apr 169

G

Gas separation and recovery
Recovery of high value off-gas from BOF plants by Dennis R Rigg. June 294
New techniques in gas separation for the steel industry by A Ciuksza, A Theobold, M Kingston and J Duggan. June 296
Production and application of bulk gases. June 298
Desulphurisation of coke oven gas by HSR process by E Rothery. June 300

H

Heavy foundry and forge
No defects in Forgemasters production of nuclear flasks. May 230
200t generator shaft shows how Thyssen can handle big problems by K Forch. May 232
Saarstahl's pivotal role in the steamy world of power turbines by Dr E Potthast. May 234
High-integrity castings match needs of heavy engineering by W Gysel. May 236
Why casting problems meant good news for Krauss-Maffei by G Schmidt and F Heczko May 238
V-A single castings can reach 100t. May 238
NBSG's speedy turbine turn-around by S A Roe. May 239
NKK development aims for ductile iron alternative to stainless steel flasks. May 239

Hot metal pretreatment
Industrial studies on hot metal pretreatment in France by J C Grosjean, J P Reboul, M Grafteaux and G Jego. Nov 542
Hot metal pretreatment remains major cost saving measure. Nov 547
Desulphurisation of pig iron using the immersed lance technique. Nov 547
Low-slag refining in the LD vessel. Nov 547
Single stage ladle desulphurisation used at Thyssen Stahl. Nov 550
Operation of hot metal pretreatment process at Nisshin's Kure Works. Nov 552

Human resources
More vocational training needed for changing world of steel by H von Bose. June 286
Self development is the key to BSC training shake up. June 288
How stresses add together to make one big headache. June 290
Steel industry can still be a top wage payer. June 292

L
Laboratory automation in the iron and steel industry by T Verspohl and D L Bray. Mar 136

Ladle Metallurgy
Optimum cleanness of special steels through combined ladle treatment methods. May 242

M
Melting Pot by Keith Gale
Japanese quality. Vanadium and motor cars. Holidays: then and now. Jan 45
Grousers. Ductility. Test piece. Thin slab casting. Feb 90
Catch them young. The convenience of cast iron. Charger. Mar 142
Etymology of the grouser. Pen or pencil? Steel and steam engines. Apr 193
Noise. Manganese in two roles. Three-high mill. May 252
How thick is a postcard? Iron, steel and railways. Designer tinplate. June 305
Iron will not float. 'Other' processes. Blooms. July 354
Slags and snobs. Grousers and spuds. Required action. Well done, BSC! Aug 413
Wheel tapper. The Lauth Mill. Old and healthy. Sept 474
Steel finishes the job. Steel flora and fauna. Safety at work. Oct 524
Bridges off the shelf. The Lauth Mill, continued. Light rail transit. Nov 576
End of an Era. Jugged Furnace. WISCO. Dec 628

N
NASS Conference
Reality increases its grip on UK stockholding. July 356
Change continues but competition remains. July 362
Strong BSC order book is result of internal effort and national economy improvements, says Scholey. July 362

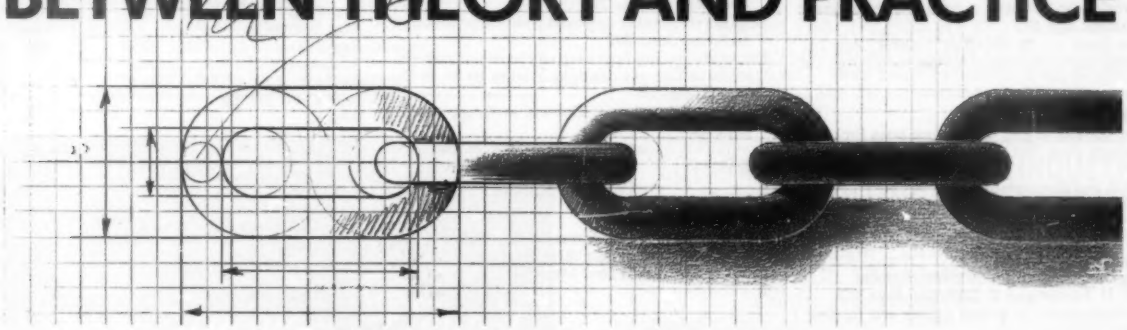
Near Net Shape Casting
A Summary of strip and thin slab casting activity. July 322
Irsid investigates direct strip casting by a twin-roll method. July 322
Strip casting of low carbon steel at Voest-Alpine by K Schwaha, W Egger, F Hirschmanner, F Landerl, A Niedermayr, H Rametsteiner. July 324
Inside the ring caster research reinstated by LTV. July 328
Installation of an electromagnetic flushing distributor to feed a Hazlett continuous caster. July 328
Direct casting of thin stainless steel strip at Allegheny Ludlum. July 328
North American conferences on Near Net Shape Casting. July 328
Current practice with the Hazlett belt caster. July 330
Thin slab casting at Sumitomo Metal. July 332
Uphill feeding reduces oxidation and leakage. July 332
Latest developments and operating results of the high-speed strip-casting machine at SMS Schloemann-Siemag by Herbert Fastert. July 334
Controlling nitrogen in steel. Apr 188

Non-destructive testing and inspection
Non-destructive testing within the steel industry by D H Lavender. Aug 401
EMA angle-probe prototype tests steel tubes on-line by W Böttger, W Repplinger, W Weingarten, A Wilbrand. Aug 402
Automatic ultrasonic inspection for billet testing at Brymbo by S Williams. Aug 404
Technique for NDT for steel plant promises crack depth and reliability by A Hunscott and Doug Breeze. Aug 406
Non-contact plate inspection system detects presence of laminar defects. Aug 408
NDT information service launched by Harwell Centre may give help to steelmakers. Aug 408
Swinden Laboratories open up for testing and inspection. Aug 410
Optical service inspection system adopted on Hoogovens hot strip mill. Aug 411
Cross profile of rough plate delivered in five secs. Aug 412

O
Oxygen steelmaking
L-D triumph and challenge by Joseph K Stone. May 213
Concept and status of the Posco steelmaking plant at Kwangyang. May 216
ECSC research in iron and steel. May 217
Steelmaking developments at NZ Steel and Tisco. May 218
Oxygen steelmaking process control. May 220
Carbon monoxide separation from off-gas at Kobe's Kakogawa Works. May 224
Further development of the KMS Process. May 228

P
Plant monitoring and control
Implementation of the Alcont-system in Rautaruukki Oy's blast furnaces by Lasse

THE CONNECTING LINK
BETWEEN THEORY AND PRACTICE



At MEFOS you can put your theories into practice. Especially in process metallurgy, metalworking, heating, process control and gasification processes.
All research is performed confidentially.

We offer the following advantages:

- Heavy equipment in pilot plant scale with complete industrial infrastructure
- 40 qualified researchers and technicians
- 20 years of research experience in pilot plant and industrial fields

Clients worldwide choose us for our technical ability, independent approach and assured confidentiality.

MEFOS

Toivonen and Lasse Pesonen. Feb 60
Compact control systems in steelmaking processes by Y Iwahashi, K Shinchi, T Tagami. Feb 65
Advanced on-line blowing control of the BOS process by D Anderson, D Taylor, C McQueen. Feb 68
Expert systems in maintenance: a case study on continuous casting plant by Dr W Jack. Feb 70
Maintaining casting machine parameters. Feb 73
Fibre-optic control system for Clydesdale caster. Feb 73
Lubricant analysis indicates machinery condition. Feb 73
Process monitoring at Ravenscraig. Feb 76
Vibration monitoring of rotating plant. Feb 76
Blast furnace process control modelling. Feb 78
Artificial intelligence applied to BF control at NKK. Feb 78
Plant enhancements for competitive edge. Jan 40
An on-line analyser to measure tin and iron in plating baths by B A Jones. Sept 469

Powder Metallurgy
Powder metallurgy: a technology for all industries by Gordon T Brown. Oct 504
Production and alloying of ferrous powders by Per Lindskog and Goran Wastenson. Oct 508
Increasing stainless production at Rigby Metal Components. Oct 511
HIP technology in production at Surahammar. Oct 511
Gas atomised powders are raw materials for extruded bars and tubes. Oct 512
BPMF releases video on 'Designing for powder metallurgy.' Oct 512
Powder produced in clean rooms at Krupp Pulvermetall. Oct 514
Consolidation by atmospheric pressure in glass moulds gives high density preforms. Oct 516
Isostatic pressing extends powder metallurgy performance. (National Forge Europe). Oct 518
The Powdrex high speed steel billet process by P R Brewin, P D Nurthen and B Toloui. Oct 520
Near net shape component production by HIPing. Oct 522
Technology advances sought by MB Powder Metal Group. Oct 522
Comparison between hot isostatic pressing and rotary forging for tool steel production by J Stamberger, B Hribernik and H Jaeger. Nov 575

Process control
In-service monitoring of intercrystalline stress corrosion on hot blast stove domes by acoustic emission. Apr 192
System keeps smoke densities in check. Apr 192
Sampling and treatment of molten metal. Apr 192

R
Rail rolling quality
Longer life and higher quality are aims for track products from BSC Cumbria. June 304

Research and development
Mefos — a pilot plant providing the missing link. Feb 80

Rolling Mill Lubrication
Rolling lubricants in today's environment by C H Turner and K Oldridge. Sept 462
Rotherham plans for better, tighter and flexible future. Dec 622

S
Scandinavia
Restructuring SSAB on the long road to privatisation. Dec 606
Politics confuse NJ closure. Dec 606
Better metallurgical control and more CC in Ovako Imatra plan for engineering steels. Dec 608
Hellefors cuts maintenance costs by management system. Dec 608
Rautaruukki hot rolling is next area for modernisation. Dec 610
Strong stainless market prompts Outokumpu start-up of hot strip mill. Dec 614
Turnkey pollution control system will cut fluorine emission from LKAB. Dec 614
Swedish steel reshaped. Dec 619
Sandvik feels US pinch in 125th year of operation. Dec 619

Scrap
The Tula process for converter steelmaking using a 100% scrap charge. July 346
Questions on environmental control at Tornio. Dec 619
Measures taken to maintain iron ore industry in Sweden. Dec 620

Service Centre
Plate specialist moves up market. Jan 46
Future exits despite decline in bright bar business. Jan 47
Amari expands stainless steel operations. Feb 93
Process control of blanking line improves stockholder efficiency. Feb 93
Outlook still bleak but stockholders must improve customer service says report. Feb 94
GKN Steelstock wins major order by getting its process into line. Mar 146
Browne & Tawse, Basingstoke, gains award of Approved Stockist quality status from Lloyds. Apr 200
CNC sawing will allow rise in production. Apr 200
Automated steel handling and sawing improves accuracy and boosts output. May 253
Stainless steel tube stockholder promises next day delivery in the UK or else. June 308
HQ move and warehouse close as Simpsons aims to save £1M. July 364
Hoogovens proposes acquisition of service centres in USA and Germany. Aug 419
Additions in Coventry and Ashford make 31 outlets for Brown & Tawse. Sept 476
Stockholding coming back into fashion, claims ASD boss. Oct 527
Training stockholders to improve their service. Oct 528
'Materials managers' role for FRG stockists. Nov 581
Desirability of industry domination by majors questioned in report. Nov 582
Computerised system is specifically designed for stockholders needs. Nov 583
ASD continues to grow through acquisition. Dec 632

Stainless Steel
Production of high chrome steel using vacuum metallurgical technology by W Pulvermacher, G Stolte and J Rushe. June 269
Avesta AB — The new Swedish constellation in stainless steel. June 276
Hot mill completes the chain from chrome ore to stainless steel in Finland by Dipl.ing Seppo Koivuniemi and Dipl.ing Eero Rättyä June 280
Belgium steelmaker upgrades stainless production facilities. June 282
Life cycle costing approach to the use of stainless steels in flue gas desulphurisation by W H D Plant June 284
75 years of stainless production at Krupp Stahl. Sept 468
Continuous annealing of stainless steel. (ECSC). Sept 468

T
Tundish Metallurgy
Perspectives on tundish metallurgy. Mar 128
250,000t of blooms cast through tundish rotary valve at BSC Lackenby. Mar 134
